### NOTICE

EVERY FARM should have a reliable engine large enough to drive not only all the lighter machines about the farm like the churn, cream separator, washing machine, grindstone, and the feed cutter, but in addition, saw wood, pump water, run feed grinders, and drive other machines taking more power.

You cannot take a chance with an engine that may pull the load—you must be sure it will pull it right through to the end and then be ready for the next job. That's where the wonderful Type "Z" engine shines! We call it a 1½, a 3 or a 6 horse-power engine, but that's only the name-plate rating. We have gone beyond the name-plate because we know that at times you need more than the horse-power you pay for, and we have built the Type "Z" to give it to you. That's service—Fairbanks-Morse Engine Service

## Fellow Canadians!

"YOU who spend as much or more on your  
enjoyment—who indulge in as many of the  
good things of life as you ever did—you  
who buy what you want to, eat what you fancy,  
go where you please—who deny yourselves  
nothing—how much real thought do you give to  
the winning of the war?"

"You know what we have to put up with. Do you  
think we could stand it all—the homesickness,  
the untold misery, and the terrible fighting—if  
we dreamed 'over there' that you were trifling  
with this war, that you were spending money on  
frivolous things?"

"Don't you see that every time you spend a dollar  
on a thing you don't really need you are using the  
labor of a man who should be either fighting or  
making something that will help us—your  
soldiers—to fight?"

"Oh, you chafe with money in your pockets and  
comfort in your homes and love of ease cankering  
your souls,—if you could know as I know all that  
war means, you'd stint yourselves down to the  
bare necessities, so that Canada's money and  
Canada's material and Canada's labor could all  
go into guns and shells and equipment for our  
boys in France to fight with!"

under the authority of  
the Minister of Finance  
of Canada

*War times are teaching us that there is no economy in buying the cheapest goods nor the fancy high priced ones. We are depending on the solid values of the good standard brands—the brands that were good in peace time and have doubly proved their worth in war time.*

*Red Rose Tea—costing today only about 1/4 of a cent per cup—is one of the solid war time values that anyone can afford—and that everyone will enjoy.*

## Rapid Growth of Wheat

What a combination of good seed, fertile soil, plenty of moisture and right climate will do is shown in a sample of wheat recently brought to Edmonton, Alberta, from a farm about 20 miles northeast of that city. This wheat was four feet long. It was sown on May 9th and cut on July 15. It therefore made a growth of forty-eight inches in sixty-seven days. This result is hard to beat anywhere.

**For Frost Bites and Chills.**—Chills come from undue exposure to slush and cold and frost-bite from the icy winds of winter. In the treatment of either there is no better preparation than Dr. Thomas' Electric Oil, as it counteracts the inflammation and relieves the pain. The action of the oil is instantaneous and its application is extremely simple.

## "Age for Wisdom"

Japan, apparently is ruled by old men. Prince Yamamoto, at the age of 83, is still the center of political influence. Baron Shibusawa, in spite of his 74 years, is constantly dragged from his would-be retirement, and Marquis Okuma, at 79, is still at the vortex of public affairs. It is reported that Japan attempts nothing of any great moment without the assistance of the influence of these three great old men.

## Farm Employment Organizations

Each province in Canada has its organization to enroll those who are willing to help on the farms. Make enquiries, and get in touch with your local officers.

## THAT CHANGE IN WOMAN'S LIFE

**Mrs. Godden Tells How It May be Passed in Safety and Comfort.**

Fremont, O.—"I was passing through the critical period of life, being forty-six years of age and all the symptoms incident to that change—headaches, nervousness, and in a general run down condition. It was hard for me to do my work, Lydia E. Pinkham's Vegetable Compound was recommended to me as the best remedy for my troubles, which I very promptly began to feel better and on every day since taking it, the annoying symptoms have disappeared."—Mrs. M. Godden, 926 N. 18th, Fremont, Ohio.

Any annoying symptoms as heat, nervousness, headache, irritability and "the blues," may be overcome and the system brought to normal conditions by this vegetable compound. Lydia E. Pinkham's Vegetable Compound, for suggestions how to use it, write to the result of forty is at your service and strict confidence.

## "Grey Day"

When Britain's Entry Into the War Took Place

Several correspondents have written to The Sun on the subject of England's day, which will be celebrated, we believe, with appropriate services next Sunday. Yet this very day is an anniversary upon which every Englishman must look with pride. It was on July 30, four years ago, that Great Britain made her reply to the impossible proposals of Germany; that England stood aside and let the truth have its way in all-England's history there is nothing clearer or cleaner than the answer sent by Sir Edward Grey to Berlin:

"His Majesty's government cannot for a moment entertain the chancellor's proposal that they should bind themselves to neutrality on such terms."

"What he asks us is in effect to engage to stand by while French colonies are taken, and France is beaten, so long as Germany does not take French territory as distinct from the colonies."

"From the material point of view such a proposal is unacceptable, for France, without further territory in Europe being taken from her, could be so crushed as to lose her position as a great power, and become subordinate to German policy."

"Altogether apart from that, it would be a disgrace for us to make this bargain with Germany at the expense of France, a disgrace from which the good name of this country would never recover."

"The chancellor also in effect asks us to bargain away whatever obligation or interest we have as regards the neutrality of Belgium. We could not entertain that bargain either."

If Edward Grey had never written another line, the message we have quoted would be enough to make safe his place in history.—New York Sun.

## CHOLERA INFANTUM

Cholera infantum is one of the fatal ailments of childhood. It is a trouble that comes on suddenly, especially in the hot summer months, and unless prompt action is taken the little one may soon be beyond aid. The Own Baby Tablets are an ideal medicine in warding off this trouble. They regulate the bowels and sweeten the stomach and thus prevent all the dreaded summer complaints. Concerning them Mrs. Fred Ross, South Dakota, says: "I feel Baby's Own Tablets saved the life of our baby when she had cholera infantum and it would not be without them. The Tablets are sold by medicine dealers or by mail at 25 cents a box from 'The Own Baby Medicine Co., Brockville, Ont.'"

## Farm Help at Right Time

The Canadian farmer does not want gifts next Christmas. He wants help for the harvest, and harvest time will be soon. 12,000 men are needed for Ontario, 12,000 in Quebec, 10,000 in Manitoba, 20,000 in Saskatchewan, 6,000 in Alberta, and 2,500 in British Columbia. New Brunswick needs all of her own men she can enlist, and has no time to spare. Now Scouts need all their own men, so does Prince Edward Island. Help will have to come from the towns and cities, and the time to make arrangements is now.

**Women and Asthma.** Women are numbered among the sufferers from asthma by the countless thousands. In every climate they will be found helpless in the grip of this relentless disease unless they have availed themselves of the proper remedy, Dr. J. D. Kellogg's Asthma Remedy has brought new hope and life to many such. Testimonials, sent entirely without solicitation show the enormous benefit it has wrought among women everywhere.

**Killing the Breeding Stock**  
The live stock in the countries of the allies in Europe has been increased by 46,000,000 head since the beginning of the war. 40% of the eggs in France have been killed, and 35% of the sheep. It is estimated by French officials that French live stock cannot be restored to the pre-war basis until from five to ten years after the war.

## Ingram's Milkweed Cream

Many women look older than their years largely because they do not take proper care of their complexion. Ingram's Milkweed Cream will keep you looking younger than you are. It lessens the complexion clear and color. It keeps the skin soft and is a healthy cream because it has no active ingredients. It is the most perfect skin cream for the face. For chafes of the nose and forehead try Ingram's Milkweed Cream. It is a fine and delicate in texture that perfectly cleanses the skin and keeps it soft and effectively removes the skin impurities. It is the most perfect skin cream for the face. It is the most perfect skin cream for the face. It is the most perfect skin cream for the face.

**A Picture with Each Purchase**  
Each time you buy a package of Ingram's Toilet aids or Perfume your druggist will give you, without charge, a large portrait of the world-famous motion picture actress. Each time you get a different portrait to make a collection for your home. Ask your druggist. F. F. Ingram Co., Windsor, Ontario. (94)

## SMOKE TACKETTS T&B PLUG

**Great Opportunity for the Farmer**  
Allied Empire depends on America for 50% of its food supply. After the war a large proportion of this demand will be met by the world's short of food stuffs. The live stock population has been decreased. Russia has been socially disorganized, and is not producing enough to feed herself. Farmers of Canada will have an export market for years, such as for which they have never dreamed.

**More Time for Knitting**  
"I see that fewer pockets in men's clothes have been ordered."  
"To save cloth for one thing—also to save our wives' time in going through them."

## ANY CORN LIFTS OUT, DOESN'T HURT A BIT

No foolishness! Lift your corns and calluses off with fingers—It's like magic!

Sore corns, hard corns, soft corns or any kind of a corn, can harmlessly be lifted right off with the fingers if you apply, says a Cincinnati authority.

For little cost one can get a small bottle of freestone at any drug store, which will positively rid one's feet of every corn or callus without pain. This simple drug dries the moment it is applied and does not even irritate the surrounding skin while applying it or afterwards.

This announcement will interest many of our readers. If your druggist hasn't any freestone tell him to surely get a small bottle for you from his wholesale drug house.

## Playing Safe

In the spelling list for a class in a certain Indianapolis school were the words "singing" and "singing." The class was asked to write sentences using these words to show that they knew the correct meaning of each. One little fellow wrote: "The Italians are a singing nation. The allies will soon be singing the death of the Kaiser." With sidelong glances he watched the teacher mark his paper and timidly asked: "Is it all right?" "Yes," she said, "but the Kaiser has no beard; he has a moustache." "I know, I know, but I wanted 100 on my paper, and I couldn't spell moustache."—The Argonaut.

## Brings the Elevator Nearer the Grower's Grain

ON the prairie the miles that separate the grain from the elevator or loading centre often means a loss to the farmer. The Ford One-Ton Truck fitted with a dump body fulfills the grain grower's every requirement. The truck may be loaded direct from the thresher—it eliminates expensive and unnecessary handling.

The dumpbody is only one of the many styles doing efficient work for the Canadian grain grower, farmer, producer and distributor. For example, in many districts a suitable body has been attached to the Ford Truck Chassis and is being used for transporting children to and from consolidated schools.

## THRIFT HALLMARKS A NATION

Saving the almighty dollar in order to gratify one's desires in the matter of personal purchases has been a working force in society for all time. To save for the sake of hoarding the golden ducats is a form of insanity that has afflicted the misers of all time. To save in order to make another stronger is the highest form of thrift known. And in exercising this virtue of laying aside extra dollars from our present surpluses, for the better living of society when times may not be so generous, we carry in us the marks of the true Canadian patriot.

He who loves his country is no waster. He knows his savings form the capital that makes business go. The dollar soon doubles itself and total savings of a thrifty people mark out the nation as a really great one. Love of our Canadian home land demands of every resident from the Yukon to Cape Breton, that he save his surplus dollars against a possible rainy day. The thrifty man is one of Canada's big patriots.

## Relaxation Necessary

We are all drafted-everything is drafted to win the war. Every man, measure, dollar, acre, crust, lump of sugar is drafted. For until the world fire is extinguished, nothing is safe. If a fire should rage a week we would make it our business to fight it. But we would eat, drink, rest and relax daily to hold out as fighters. The people who have been fighting the world fire for four years find they must eat, drink, rest and relax.

"The soldiers relax in the trenches.

"President Wilson, a reasonably busy man, relaxes every week. He pulls down his desk and goes out to find amusement. That is why he is able to carry the tremendous load. The Indians never kept their war-bows strung all the time. They let them down that they could shoot the harrier.

"Do you want to know who always stay serious and can't relax? Go to the asylum. There they are.

"Let us relax and stay sane. Relax that we may shoot harrier.

"The Iyegoon and Chautauqua are a part of the war work in every community, to feed and enthuse the people and help them relax.

"The person who wants to stop or curtail the Iyegoon and Chautauqua today is coming to the panic that devotes instead of helps the real war work."

## WHY?

Why this Thrift urge just now? Why the insistent appeal to save? Because we are wallowing in war prosperity, and we seem to be forgetting that it's too good to last. Because Canada needs every dollar that can be saved and put into her tremendous war effort if Victory is to be hastened and peace restored. That's why?

## THE KAISER'S FATE

The nineteen twenty, the war is all past. And the Kaiser sits chained in his prison quite fast. Placed there by a world of justice and love That was guided through strife by His hand from above.

Five years of horror, bloodshed and strife, Can never be paid for by one Kaiser's life. So onto his head let the punishment roll As he sits all alone with his own meek soul His mind, always weakish is crasier yet, As he sees in it women and babes dripping wet.

And crucified soldiers with eyes grown dim Casting their last dying looks upon him.

Hence the destruction and ruin of France And more of his crimes as he sits in his trance As he gazes, beholds an endless parade Of all the misery on earth he has made.

May he live on for thousands of miserable years.

And each minute think of the oceans of tears That were brought to earth through his foolish mind.

May he hope for the death that he never can find.

## PLANS FOR RETURNING SOLDIERS TO CIVIL LIFE WHERE THEY MAY FIND PEACE SCHEME FOR RETURNING SOLDIERS TO CIVIL LIFE

Military Authorities in Great Britain Are Already Working On Far-reaching Plans Which Will Facilitate Movement At the Dispersal Depots

A London correspondent of the Associated Press, describing the measures which are being taken in Great Britain to solve the problem of demobilization, writes as follows: Although the end of the war may be far distant, plans for demobilization of the British army, when the proper time arrives, are well under way. The military authorities, acting in conjunction with the ministry of labor, are perfecting the scheme by which the soldiers will be returned to civil life with the utmost celerity, and at a camp not far from London there has been a rehearsal of the methods to be adopted for dispersing the men.

"Big as was the job to get them out of the army," said an officer engaged in the work, "it will be a bigger job to get them out of it. But the country may be able to do everything that will be done to enable the soldiers to reach their homes and get employment with the minimum of friction."

The scheme is far-reaching. The authorities have had to consider not only the situation at home, but also how the plan will fit in with the continent of France, Belgium, and the overseas Dominions, and with transport facilities from Salonica, Macedonia, Palestine, and other parts of the world. How long it will take to demobilize the millions of troops is a question to which no one then occupied in the task are not prepared to give a definite reply.

Eighteen dispersal depots are to be established in England, Scotland and Wales. Every step has been taken in detail. Before the men in France are ordered home they will be assembled in the order of the depots to which they are to be sent. Each man will take with him his entire kit, including his arms and personal equipment, steel helmet and box respirator. Obviously he will have been deprived of his ammunition.

On reaching the dispersal station the men will hand over their equipment. Everything must be given except the uniform, which the soldier is wearing, and his great coat, which the coat must be returned after the month's furlough to which each man will be entitled. He will be permitted to retain his uniform.

The soldiers will have through several lists before he is sent on furlough. In one he will be given protection certificate, containing particulars regarding his regiment, length of service and destination. In another he will be given an advance on the pay still due him, and post-office money orders in three equal instalments for the remainder.

On application the soldier will be presented with an "out-of-work" money policy valid for a year. This will entitle him to receive a fixed sum for a definite period from the post office, if unemployed.

Finally, the men will be grouped in different huts, according to the locality to which they are to be sent. Railroad tickets already will have been made out. Then will come entertainment and the start for home.

### Our Coal Resources

Plans for Utilizing the Lignite of Western Canada

A plan for the utilization of western lignite that is likely to have far-reaching results, has been formulated by the Canadian cabinet for scientific and industrial research. The provinces of Manitoba and Saskatchewan import annually from Pennsylvania about 500,000 tons of anthracite for domestic fuel. There are three provinces in Canada with about 57,000,000 tons of lignite of a poor grade, and consequently disqualifies them from serving as a source of fuel. It has been demonstrated, however, that they can be carbonized, and briquetted, and that the product thus treated is an equivalent of anthracite.

As a result of these investigations, conducted by the lignite commission, the council recommended that the government establish a plant in southern Saskatchewan to turn out 30,000 tons of this fuel yearly, the estimated cost of which would not probably exceed \$7 per ton at the plant. The three governments concerned are about to sign the proposed agreement, the Dominion government already having voted its share of the total cost of the plant. The governments expect to appoint a commission to operate the plant at an early date.

### Fate of "U" Boat Sealed

Italian Naval Officer Says Day of Suppression Is Approaching

A high officer of the Italian navy, interviewed by the Rome correspondent of the Central News, spoke on the subject of the destruction of enemy submarines, said:

"In this war our enemies have deliberately elected to play the part of wild beasts, and they set out to dominate the world by brute force. This is especially true in regard to their submarine war methods. As a result the world had to turn itself against these wild beasts of the sea, and a pitiless chase was begun in order to destroy them."

"Ever since the world began human hunts against beasts have invariably ended in the suppression of the plague, and in this hunt the destruction of the beasts will be complete before the war ends. The Austrian beast has already been eliminated—Austrian submarines are no longer to be met with. The German beast is still active, but it has begun to lose its teeth, and its fate is sealed."

"It has been decided not to publish the statistical results of the campaign of destruction against submarines. Personally I doubt if that is the best method. The hiding of these figures has enabled the rulers of Germany to deceive the people, and make them believe that the submarines were achieving their aim. The German navy has decided to publish the figures of the number of submarines destroyed, the whole world, especially Germany, will be astounded."

"The mine blockade, established by the British in the North Sea, is an brilliant results and similar blockades in other waters have also been put in force. The German submarine fleet will be completely suppressed."

### Greatly Increased Wool Production

Considerable Increase Over Last Year's Production

Although it is still too early to determine what the total production of wool in Western Canada this season will be, it is evident that there will be a considerable increase over last year's production, and in all probability great. The estimate for the year is that the production will be twenty per cent, which was originally forecasted. Grading is now well under way, and it is estimated that the quantity of wool is also expected during the last two weeks.

Two weeks before the close of the grading season, about fifty per cent more wool had been received than at the same time of the year. The total increase for the year over last year's production is estimated at around twenty-five per cent. Edmonton, Alberta, too, will have considerably increased its production this year. The same remark applies to Lacrosse and other small receiving stations in Alberta, Manitoba, and the northern Alberta Wool Growers' Association, which members produce a large quantity of wool. Western Canada will ship about 1,600,000 pounds of wool, which is about ten per cent greater than the total shipments of last year.

The farmers of Manitoba have also considerably increased their wool output, estimates showing an increase of between twenty-five and fifty per cent.

On the whole, very satisfactory progress has been made in the sheep industry since last season. Western Canada is destined to be a great sheep country, and continual progress may be looked for during the next few years, as sheep are becoming more and more popular with the farmers, and the country is capable of supporting many times the number of sheep already here. The rate of progress is only limited by the ability of farmers to obtain sheep.

### High Tribute to Brave Men

Act of Superb Courage Saved the Whole Allied Cause

Canada's brave men, who have fought the war, have been the greatest success of any of this sort in the history of the Canadian people. They have been in several states and provinces, and they were so keen to secure some of the famous animals which were to disappoint them more animals were sold than it was originally intended. The first 60 animals sold for an average of more than \$800.

A question of right. "Every man has a right to his own opinion," said the argumentative man. "That's what I say," exclaimed the other man, "I am not in a position to argue. What is the sense of your putting up a discussion in an office where my opinion is not wanted and substitute yours?"—Washington Star.

## BEHIND THE NEED OF THE GERMAN EXEMPLIFIED IN CONDUCT OF WAR

CRIMES SUCH AS THE WORLD HAS NEVER KNOWN

German Brutalities, as Evidenced During the Past Four Years, Are the Direct Expression Of the Beliefs That the Nation Expresses Through Its Military Domination

### Captured a German Plane

Australian Airmen Drove a Bosche Two-seater to an Allied Airplane

A German two-seater aeroplane which had been part in low flying patrols during the attack on the French and had lost its way, was discovered above the Australian area by our Australian reconnaissance machine coming home from the German front.

The Australians belonged to the squadron which first met Richtofen's circus and Richtofen's last flight and saved Richtofen's machine and buried Richtofen's body. The German machine yesterday tried to escape, but the Australian headed him off, and shepherded him towards his own aerodrome like a lost sheep.

The German did not apparently relish a duel, and did not fire a shot. The Australian aeroplane steadily drove the German down, keeping about 300 feet behind his tail.

The Australian observer frequently told the pilot to attempt to make a burst. The pilot replied: "No, so long as he behaves properly on my ground I shall not fire."

The German, who subsequently admitted he did not know the pilot, was seen to attempt to fight, and landed in the Australian aerodrome in a considerable state of confusion. The machine would open fire each moment.

His machine was captured intact for the Australian war museum.

### Czecho-Slovak Cause

Bohemians and Their Kinsmen on Side of Allies

Four nations have recognized the Czecho-Slovak cause: Italy at the Rome congress; France by "proclaiming the rights of the (your) nation to independence"; Britain, June 5, by the Balfour statement confirming the Lansing note of June 28 emphasizing the stand that "all branches of the Slav race should be completely freed from German and Austrian rule."

Known to us as Bohemians, the Czecho-Slovaks are a race scattered in many ways the most progressive element in the Austro-Hungarian empire. The Slovaks, a closely kindred race whom "divide-and-conquer" policies have kept apart from their brothers.

The Czecho-Slovak armies are mainly formed of Austro-Hungarian troops, and this was the first revolution, with freedom as its goal, by espousing the other side. The Slovaks, a closely kindred race whom "divide-and-conquer" policies have kept apart from their brothers.

Of 60,000 willing Czecho-Slovak prisoners in Russia, many thousands have died fighting for the entente. Possibly 100,000 are still in arms. The most famous body are the 60,000 men, who, under the agreement of the Bolsheviks with their national council, started across Siberia to get to France by way of the Pacific, but who found nearer work in ending the anarchy about them. In all the world today no group of men of such modest aims is so placed as to promise such momentous service for humanity and civilization.

### Manitoba Cattle Bring Big Prices

A dispersal sale of Aberdeen Angus cattle from the farm of J. D. Macdonald, of Brandon, Manitoba, was the greatest success of any sale of this sort in the history of the Canadian people. They have been in several states and provinces, and they were so keen to secure some of the famous animals which were to disappoint them more animals were sold than it was originally intended. The first 60 animals sold for an average of more than \$800.

### A Question of Right

"Every man has a right to his own opinion," said the argumentative man. "That's what I say," exclaimed the other man, "I am not in a position to argue. What is the sense of your putting up a discussion in an office where my opinion is not wanted and substitute yours?"—Washington Star.

Every act of the German nation since the war began and including its inception has been the most direct expression of a creed, a creed that has always produced just exactly the kind of action in which Germany indulges. This creed has just been published by the New York peace society in a pamphlet called "The Creed of the Hun," entirely in words quoted from Germans themselves, even the title. (It should be remembered that it was this Kaiser himself who first designated the German soldiers as "Huns" in his famous speech to the army sent to punish the Chinese at the time of the Boxer rebellion). Prof. Charles H. Levermore has summed up some various utterances, coming from such men as Frederick the Great, von Clausewitz, William I., Koller, Trietschke, Lasson, Bernhardi, Bethmann-Hollweg, and the War-Book of the German staff, in the following sentences:

"Article Second.—The state possesses unlimited sovereignty, and is not subject to the moral restraints that should govern the conduct of its actions. It is a creature of war, and barbarity which is thought to be necessary to insure the survival of the fittest is power is permissible and justifiable."

This doctrine, expressed perhaps even more vigorously by the Prince von Bismarck, the Kaiser, the Reichstag, "For Germany right is in the end determining consideration," has been the guiding principle of the German government since the introduction of the most heinous devices into warfare, such as gases and burning oil; the sinking of ships full of non-combatants and women and children, and manifestations of satanic gloom over their fate (medals were struck over the drowning of women and children and distributed all over Germany); the practice of piracy on the high seas, sinking ships of neutrals in all directions and all places so that no ship or nation is safe anywhere in the world; the dropping of bombs on children playing on the beach; the deportation of civilians of Belgium and France as slaves into Germany as the old heathen nations used to make slaves of all whom they conquered; the spying upon everybody in all nations; while guests of German France, the introduction of the most heinous devices into warfare, such as gases and burning oil; ## NOTICE—MILITARY SERVICE ACT, 1917

### MEN EXEMPTED AS FARMERS

Having in view the importance of leaving a sufficient number of men on those farms, which are actually contributing to the National Food Supply, notice is hereby given as follows:

1. ALL MEMBERS OF CLASS I POSSESSING EXEMPTION AS FARMERS which is expiring and WHO WISH TO REMAIN EXEMPT should communicate with the Registrar under the M.S.A., of their respective districts, REQUESTING AN EXTENSION IN TIME OF SUCH EXEMPTION. Questionnaires will thereupon be issued to these men by the Registrar and they will receive further exemption upon furnishing satisfactory proof that they are contributing sufficiently to the National Food Supply.

2. In order to facilitate productive employment during the Winter months, MEN EXEMPTED AS FARMERS SHOULD APPLY TO THE REGISTRARS FOR PERMITS TO ENGAGE FOR THE WINTER IN SOME OCCUPATION OF NATIONAL INTEREST, SUCH AS LUMBERING, MUNITION WORK, ETC. Such permits will serve to enable exempted farmers to pursue other useful occupations for the months during which farming operations cannot be carried on.
